

Landmark Clinical Trials Portfolio

Dr. Rakesh K. Bhargava

Principal Investigator

Study Acronym	Full Official Study Title	Therapeutic Area	Start Year	Completion Year	Landmark Trial
ATLAS	Anti-Xa Therapy to Lower Cardiovascular Events in Addition to Standard Therapy in ACS	ACS / Anticoagulation	2008	2011	Yes
BMS 205-005	Evaluation of Pravastatin in Acute Coronary Syndromes	ACS / Lipids	1999	2001	Yes
ISIS-2	Second International Study of Infarct Survival	Acute Myocardial Infarction / Thrombolysis	1985	1988	Yes
CASSIOPEA	Rivaroxaban for Thromboprophylaxis after Hospitalization for Medical Illness	Anticoagulation / Thrombosis	2015	2018	Yes
CAIN	Canadian Amiodarone	Arrhythmia / Post-MI	1987	1992	Yes

	Myocardial Infarction Arrhythmia Trial	Ventricular Arrhythmia			
ELIXA	Evaluation of Lixisenatide in Acute Coronary Syndrome	Diabetes / CV Outcomes	2010	2015	Yes
ELECTRA	Evaluation of Eplerenone in Chronic Heart Failure	Heart Failure	2002	2004	Yes
IMPROVE-IT	Improved Reduction of Outcomes: Vytorin Efficacy International Trial	Lipids / ACS Prevention	2005	2014	Yes
REVEAL	Randomized Evaluation of the Effects of Anacetrapib through Lipid Modification	Lipids / Atherosclerosis Prevention	2011	2017	Yes
ROCHE Dal-Heart	Dalcetrapib Outcomes Study in Patients with Recent Acute Coronary Syndrome	Lipids / HDL Modulation	2008	2012	Yes

All studies listed are recognized landmark international multicenter trials.
